

Funeral Services

The loss of a loved one can be a difficult time and we are here to offer help, comfort and support.

Funeral services usually include a tribute to the person who has died, usually readings from the Bible, prayers (relating to the deceased person and to their family and friends), and hymns or other music.

We remember with thanksgiving the death and resurrection of our Lord Jesus Christ, commending to God's love the person who has died.

*We celebrate all that was good in their earthly life,
We express our natural sense of grief and loss,
We are reminded of our own mortality.*

Christian funeral services attempt to keep these various aims in balance and to integrate them into an act of worship which reflects our faith, our experience and our feelings.

We, or your funeral director will be happy to advise you further.
